

# The Quietly Wild Store

SEEKING QUIET, CREATIVE JOY FROM THE WILD OUTDOORS

[www.thequietlywildstore.co.uk](http://www.thequietlywildstore.co.uk)

# about us

Born in the lock-down of 2020, and launched in March 2021 we wanted to create a lifestyle brand that helped people press pause and take a moment to seek calm within the chaos.

Our founder Bee, found quiet, creative joy from the wild outdoors when creating her very own dried flower wreaths at home.

She quickly realised that others might need that opportunity to step back from technology and everyday life, to slow down through the art of mindful making.

In the short space of launching Bee has also ran a successful number of sell-out workshops which are in addition to our DIY wreath kits available on the website shop.

Our dried flower wreath kits are lovingly sourced from some of the highest quality UK & off-shore, family run wholesalers to ensure you have stunning flowers to create your very own wreaths for the home.

## testimonials & kind words

This wreath making workshop was just wonderful. The set up was lovely, Bee was full of joy and expert tuition and it felt really festive. It had everything you needed to make a beautiful wreath and I was actually really pleased with my result. It's now hanging in my home and makes me smile everything I walk past it. Thanks Bee, I'll definitely be coming back for a Spring one!

**Hanna - Workshop Attendee**

We love our dried wreath workshop so much! Bee was the best host, and was super helpful showing us how to make our wreaths look beautifully festive. If you're wanting a fun Christmas activity I'd definitely recommend this workshop

**Lorna - Workshop Attendee**

Today it felt so good to make something with my hands, to start and finish a project that doesn't require a screen. My wreath making skills might need a bit of work but it doesn't need to be insta-perfect which is exactly what the quietly wild is all about. I definitely need more activities like this in my life.

**Monica, The Travel Hack - DIY Wreath Kit**
